What is Job Shadow Day?

Job Shadow Day is a day for individuals whose life, situation, illness, or disability affects their employment opportunities. During the day, participants visit a workplace that interests them and spend time shadowing an employee.

There are three roles: the job shadower, the sending organisation and the hosting organisation.

A suitable job is a good start

The day provides an accessible opportunity to gain experience and learn more about working life.

According to the feedback, 100% of employers recommended participating to other organisations.

The job shadowers reported positive experiences and received valuable support for their career planning.

Sending organisations built new partnerships and positive outcomes for their clients.

ONE STEP CLOSER TO THE DREAM JOB!
